A MESSAGE FROM YOUR COUNTY CHAIRMAN

The National Foundation for Infantile Paralysis is concerned primarily with the conquest of poliomelitis —we want to wipe it out! Polio is an expensive disease, and the only epidemic disease on the increase in our country.

Your National Foundation Chapter is the bridge between the polio patient and maximum care. Your Inyo County Chapter is as close as the nearest telephone or telegraph station, with the facilities of a nation-wide organization ready on spot notice to meet the emergency of a single case or a raging epidemic.

We are totally dependent upon you for financial support. We can only go as far as public contributions will carry us. At this date we are lagging in our county quota of $4000, but the money derived from the "Valley Revue", no doubt, will be the factor that will carry our drive to a triumphant conclusion.

Our deepest appreciation goes to Rita Herron for her untiring and whole-hearted support in presenting to you her original production "Valley Revue of '52". She is aided by an enthusiastic group of local artists, and an ever ready corps of behind-the-scene helpers. I know you will enjoy the show.

Sincerely,
Gwendolyn Bell
Inyo County Chairman.
